Bancroft's Heads-Up

Brain Injury Seminar Series

A national leader in brain-injury rehabilitation, Bancroft provides comprehensive services from the post-acute rehabilitation phase through each step of the recovery process. Please join us for the first two webinars in our new series – a *heads-up* on the latest issues and best practices in brain-injury rehab.

What you will learn in **Trends in Cognitive Rehabilitation**

- How cognitive rehabilitation can help survivors of brain injury
- The scientific basis for cognitive rehabilitation
- Various treatment approaches used in cognitive rehabilitation
- The evidence supporting cognitive rehabilitation's effectiveness

What you will learn in **Exercise and Effects on the Brain**

- Health benefits of exercise; definitions and review of physical rehabilitation, TBI and ABI
- Strength training, balance training, pain management, range of motion; factors influencing progress: motivation, impulsivity, safety awareness
- Neuroplasticity: review of research
